

Conditions of CPBS Filly Inspections

1. Fillies must be accompanied by an up to date passport.
2. All fillies will have their microchip verified on the day of inspection. If any discrepancy arises or if a microchip cannot be located a DNA sample will be taken.
3. Filly owners must sign a declaration form before the inspection commences.
4. Fillies must be adequately trained and fit to take part in all aspects of the inspection.
5. Fillies must be fit to be handled at the inspection, including handling by the veterinary surgeon appointed by the CPBS. The CPBS reserves the right to terminate the inspection for health and/or safety reasons.
6. All fillies will have their height measured at the inspection. This shall be regarded as the official measurement for the purpose of classification and will be recorded on the passport.
7. If an owner wishes to appeal the height of a filly this must be done through the UCD Veterinary Hospital.
8. Fillies may be photographed at the inspection and these photographs will be used in CPBS publications and on the CPBS website.
9. Confirmed inspection results will be published in CPBS publications and on the CPBS website.
10. Fillies must be presented in a healthy condition and have had their hooves tended to by a Farrier.
11. If a filly does not achieve Class one or Class two in the visual she may be re-presented at an unlimited amount of subsequent inspections upon completing an application form and submitting the fee.

Failure to satisfy the above conditions will result in a filly being disqualified from inspection/classification.
